

2/22/22

Dear Legislators,

For the past two years nursing homes have been the absolute frontlines of fighting this pandemic. We have sacrificed our time and effort. We have experienced incredible loss. Unfortunately, a lot of the fight happened without the resources to meet the moment. We are struggling more than any other sector of our economy to be able to acquire labor and supplies. We often feel forgotten.

Please do not forget us when deciding our funding. We have soldiered on as society has asked more and more of us. Do not make our sacrifices for naught. We need help and you're the only ones who can help us.

Thank you,

James Murphy, MSHA, LNHA
